

WARREN ELECTRIC CORPORATION

The Heat Source

ELECTRIC PROCESS HEATERS FOR INDUSTRY

ELECTRIC PROCESS HEATER SOLUTIONS BEGIN HERE.

Warren Electric Corp. sales, customer service, and engineering departments would appreciate the opportunity to help you with your next electric heater requirement.

Warren Electric Corporation is your most reliable manufacturer for high quality standard and custom process heaters. That's something we've proven each business day since our beginning in 1962.

Serving diverse industries, we provide a comprehensive source for electric immersion heaters, accessories and services. We have a long track record of satisfying customer requirements for application expertise, quick turnaround and value. Warren Electric is committed to quality and service at competitive prices.

Whether you need to heat water, oil, chemicals, liquids or gases, we offer a heater to fit your application - from a company that will go the extra mile to earn your business.

WHAT YOU NEED.

WHEN YOU NEED IT.

We offer full capabilities from design and engineering through manufacturing and technical support. From the simple to the most challenging, Warren Electric can handle the job.

STANDARD OR CUSTOM HEATERS.

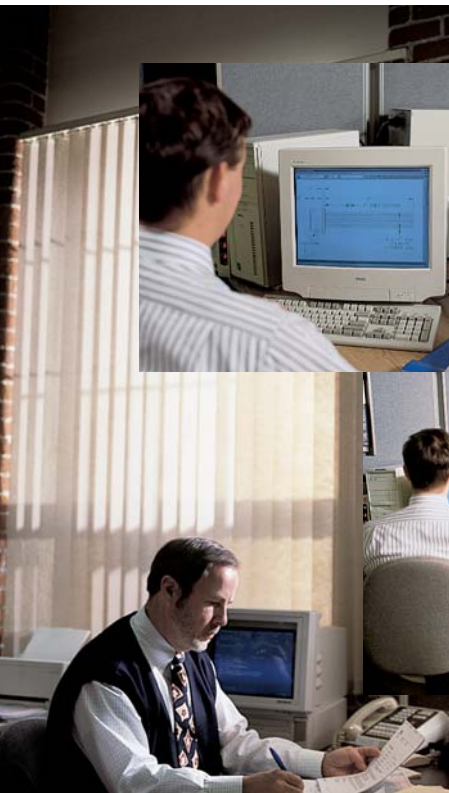

Count on us for a wide variety of heaters, including our specialties—flanged, screw plug, and circulation heaters. We also provide pressure vessels and assemblies, thermostats and accessories.

We can deliver many custom heaters quickly and cost effectively by utilizing stock parts from an extensive on-site inventory cataloged in a searchable database.

QUALITY HEATERS FOR TROUBLE-FREE OPERATION.

We are dedicated to designing, engineering and manufacturing high quality electric heaters. You can turn to us to replace an existing heater (whether it's a Warren Electric or any other brand of heater), or our applications engineers will assist you in the design and manufacture of a heater for your particular application.

Need something out of the ordinary? We cover a lot of ground with specs that range from **0.5 to 800 KW**, operating voltages to **600V**, **4 to 150** watts per square inch, and a variety of materials and sizes. Call and ask for Warren Electric's **"Quick Quote"** form for assistance. **We've got your solution.**

PROVEN PERFORMANCE.

Our electric heaters are made from high quality materials and manufactured under strict quality controls. We construct all our heaters with heavy-duty terminal enclosures. Our elements are filled with premium grade magnesium oxide and resistance wire.

Our pressure vessels are available with ASME Code Certification and National Board of Boiler & Pressure Vessels Registrations. And, we can provide "CE" conformance for your export products. Additionally, all our heaters meet the requirements of the "Buy America" Act.

IN A RUSH?

Not everyone is organized to make quick delivery possible. We are! With sales, engineering and manufacturing integrated in one location, we're geared for hands-on involvement and direct communication. We make it happen.

HELP FROM PEOPLE WHO KNOW HEATERS INSIDE AND OUT.

From engineers and tech support specialists to the president of Warren Electric, expert tech support and customer service are easily accessible before and after the sale. For more information or a quote on your next project, come to the heat source.
